

## 2011 Flavor Burst Free Syrup Promotion Registration

This promotion covers purchasers of new Flavor Burst syrup dispensing machines installed within the promotional period only (January 1, 2011 – December 31, 2011).

This promotion applies only to new purchases within the United States and Canada from authorized Distributors. The machines must be installed within the United States or Canada. This promotion is not combinable with franchise discounts.

The Distributor is responsible for supplying 25 gallons of syrup and one POP kit to the customer. The Purchaser is not required to take possession of all the syrup at the same time. Customer is responsible for only paying freight for these items.

No recourse may be made against Flavor Burst or the Distributor for syrups/POP kits not delivered if the Purchaser's account is delinquent, or not held in good standing.

Distributor will receive a standardized credit from Flavor Burst to their account to compensate them for an average cost of 17 bags of syrup plus a POP kit. Both the Distributor and Purchaser acknowledge that the remaining 8 bags of syrup are provided solely at the expense of the Distributor.

The quantity of servings that a bag of flavor yields is dependent upon the serving size, soft serve flow rate, and the syrup output setting. Frozen drink machines do not have as high of a serving-per-bag yield as soft-serve machines.

By signing this document, the Purchaser and Distributor understand and agree to the terms of this promotion.
