

## ADPT 101A

### TAYLOR® FREEZER SPOUT ADAPTER

THE ADPT 101A ADAPTER IS DESIGNED FOR USE WITH CERTAIN STANDARD AND CROWN TAYLOR FREEZER MODELS. THE ADPT 101A REQUIRES THE UPPER O-RING RUB 642, THE LOWER O-RING RUB 632, AND THE GASKET RUB 640. ALWAYS KEEP SPARES OF THESE PARTS IN THE SPARE PARTS KIT AS REPLACEMENTS FOR WORN PARTS.

RUB 608

**NOTE:** WHEN INSTALLING ON STANDARD TAYLOR FREEZERS, USE THE **RUB 608** O-RING (INSTEAD OF RUB 642) IF THE ADAPTER IS TOO TIGHT FOR THE SPOUT.
