PRINTING INSTRUCTIONS

1. Always print a test sheet before printing a batch of sheets. Once you have adjusted all the settings and have a successful print, then print a batch using those settings.

2. Print only Pages 2-3. This instruction sheet is page 1, so you need to tell your printer to only print pages 2 and 3.

3. Print at the file's "Original Size", "100%", or "Actual Size". Do not scale down the artwork or "fit to page". Doing so will end up printing all the extra registration/ printers marks around the border. These marks are used by printing companies, should you need to have this file printed professionally. But if you are printing these yourself from a standard printer, setting the print size to the original size (or 100%) will exclude the registration/printer marks around the border. Find the section of your printer options named "Reduce/Enlarge", "Zoom", "Page Size", "Scale", or other similar names.

4. Print without borders or print edge-to-edge if your printer has this option. This will maximize the art area on your sheets and minimize the white border around the edges. Sometimes this option is in a more detailed or advance section of your printer options. Not all printers have this option. If your printer does not have this option, and the white border is cutting off more than you would like, you may scale down the artwork size to approximately 97%. You will still have a white border, but less artwork will be cut off by the border.

5. Print "double-sided" or "2-sided" if your printer has this option, when printing 2-page sales sheets. Again, make sure only pages 2 and 3 are selected, or this instruction page will print with your art pages. The double-sided option may be in a more detailed or advance section of your printer options. If your printer does not have this option, you will have to print one side, load the printed page into the feeder, and print the second side. Start by doing one page at a time to make sure you get the orientation of the printed page in the feeder correct. Then, when you have a successful double-sided print, print the rest in batches.

6. Set the Print Quality to the best detail setting. Sometimes this level is also called "high resolution" or "Photo" quality. Much of the text on these pages is small. Printing at a higher quality level will help keep the text and images clear and legible. Sometimes this option is in a more detailed or advance section of your printer options.

7. Use premium paper stock or card stock to get the best image and colors. Using thin paper may cause the inks to bleed through to the other side. Print a test page to ensure the quality is acceptable.

Flavor Burst® SOFT SERVE

THE PRODUCT

ICE CREAM SUNDAE . . . IN A CONE!

- Offer up to 8 different flavors with one unit.
- Flavoring is striped on the outside as well as injected through the center of the soft serve for maximum flavor coverage.
- Specially formulated syrups gel on contact with the soft-serve without dripping.

ONE-STEP PROCESS

Simply select the flavor from the Keypad, and you're ready to draw the serving! The soft serve is striped with flavor as it dispenses.

38 DELICIOUS FLAVORS

From classics like chocolate and strawberry, to bold new flavors like butter pecan, bubblegum, and peach, Flavor Burst syrups provide variety to keep your menu selection fresh, colorful and exciting.

MULTI-FLAVORED PRODUCT

- Combine flavors for new or favorite combinations, such as caramel-apple, chocolate-cherry, or a rainbow twist!
- With an 8-flavor unit, there are literally hundreds of combination possibilities.
- Simply select as few or as many flavors as you like and the system will automatically change the flavors as product is drawn.

FLAVOR BURST SYRUPS

- The syrups are specially formulated for Flavor Burst systems and are concentrated to give each serving that perfect burst of flavor.
- Each syrup is packaged into easy-to-install 1-gallon bags with a 2-year shelf life.
- No refrigeration is needed.
- Each gallon bag yields up to 560 5oz servings - that's 4,480 servings from your first 8 flavors!

Flavor Burst® "FB" SOFT SERVE MODELS

THE EQUIPMENT

KEYPAD

- Compact size with an adjustable universal mounting bracket
- Simple and easy to navigate, with a #1-8 flavor selection layout and push-button interface
- Essential functions include a Spout Flush button, 3 serving sizes, syrup flow adjustment, and more
- Dimensions: 4 x 7.5 x 1.25 in *(102 x 190.5 x 32 mm)*

INJECTOR ASSEMBLY

- Delivers flavors directly to the spout opening
- Easy to install and remove for cleaning
- Hardwired drive motor connected to the cabinet
- Adapter kits available for a variety of freezer models
- Direct sanitizer line that allows for easy clearing of the spout between servings
- Size: 11.5 x 6 x 2 in *(292 x 153 x 51 mm)*

CABINET FEATURES

- Two models with different stainless steel cabinet styles
- Light-weight trays to hold the bags of syrup
- Easy to connect and disconnect syrup lines
- Sanitizer tank that provides clean-in-place sanitation for syrup lines

FB 80a

- Standard 8-flavor stand-alone cabinet
- Large 3-gallon external sanitizer tank

FB 80LPa

- 4-flavor mini cabinet
- 2-gallon external sanitizer tank
- Designed to fit in small cabinets and spaces
- Fits inside the Taylor C201 mobile cart *(Taylor C201 cart sold separately)*
